

OUR VISION: Rotary Lounges at airports worldwide

A place to rest, enjoy, spontaneously meet other Rotarians and do good.

Rotarians contribute to the “End Polio Now” program with their admission. One admission equals vaccination for 50 children.

With this project we want to connect Rotarians not only in Zurich, but worldwide and carry the ideals of Rotary out into the world.

Your donation
will save lives
and give children
a chance at a
healthy future.

5 Reasons why we must eradicate polio

1 TO IMPROVE LIVES.

Today, 19 million people who would otherwise be paralyzed by polio are walking, and 1.5 million people who would otherwise have died are alive.

2 TO INVEST IN THE FUTURE.

If all eradication efforts stopped today, within 10 years, polio could paralyze as many as 200,000 children each year. A poliofree world will be a healthier world for children everywhere.

3 TO IMPROVE CHILD HEALTH.

Polio surveillance networks and vaccination campaigns also monitor children for other health problems, like vitamin deficiency and measles, so we can address them sooner.

4 TO LOWER HEALTH CARE COSTS.

The global effort to eradicate polio has already saved more than \$27 billion in health care costs since 1988, and expects to save \$14 billion more by 2050.

5 TO MAKE HISTORY.

Polio eradication will be one of history's greatest public health achievements, with polio following smallpox to become only the second human disease eradicated from the world.
